

APPENDIX 1

MODEL NUMBER AND DATE LOCATION

Type Number Location

The type number is located on a white label on the spring case chimney and on the box label.

Date of Manufacture and Date of Packaging Location

The Date of Manufacture is stamped into the spring case flange in a mm-yy (12-07 for December 2007) format. Date of Packaging is found on the box label.

APPENDIX 2

INSPECTED REGULATOR IDENTIFICATION PHOTOS

Box and Regulator Marking

Regulators in inventory at Fisher and the Distributor from January 2008 and older have been inspected and marked to identify good regulators.

- Packaging for Good regulators will be labeled “INSPECTED 2008 D”.
- Good regulators will have a “D” stamped on the diaphragm flange between the gauge ports.

The following photos show how to identify good regulators that can be sold and installed.

Boxes for good regulators will be labeled “INSPECTED 2008 D”

Good regulators will have a “D” stamped on the diaphragm flange between the gauge ports.
